

Crocodile Admix Cure

Admixture

Curing Compound

Crocodile Admix Cure is a high efficiency concrete curing compound, Sodium Silicate base designed for drying concrete protection which produces a continuous film on the surface of new mortar and concrete. This film slows down water evaporation, which may be excessive in windy or very sunny weather. It is suitable for all general concrete applications and of particular benefit for large area concrete surfaces such as floor tops, parking aprons, motorways, bridges, etc.

Product Features

- Reduce surface shrinkage and cracking
- Enables cement to hydrate more efficiently
- Provides hard wearing surface and prevents dusting
- Time saving, can be applied immediately after placing concrete

Application Areas

Suitable for curing general concrete or wide areas such as parking lots, bridges, and roads.

Color: Light Blue

Application Instruction

Substrate Preparation

The surface must be clean and free of contaminants. The concrete surface should be moist before applying the product.

Application

- Crocodile Admix Cure must be applied pure onto the surface of the concrete or mortar as soon as it begins to turn matte
- Ensure that surfaces are not running with water prior to application
- If coating is to be applied to the surface, Crocodile Admix Cure should be removed by washing with water after drying
- The product film will disappear in 14-28 days

Estimated Coverage

6-8 sq.m / liter

Technical Data

Property	Standard Test Method	Result
Specific Gravity	In House	1.0-1.1

Caution

- Do not inhale
- For spray application, work in well-ventilated area
- Should be used with protection equipment such as gloves, dust mask and glasses.
- In case of contact with eyes, rinse immediately with water and seek medical advice.
- After contact with skin, wash immediately with water.
- Keep out of reach of children

Storage

- It should be kept in a dry place and the temperature is not too high to avoid product degradation.
- Use within 1 year from the date of manufacturing.

Packing

Net weight: 200 liters/drum, 20 liters/pail
